1) _____

2) _____

3) _____

PRESERVED OR RESTORED?

For a wooden boat to be considered "preserved," it must retain at least 60% of the original planks and other hull and deck material, not including the bottom. Owner's categorization will be accepted unless the judges find cause to determine otherwise, in which case the Chief Judge's determination will be final. Preserved/restored does not apply to Contemporary classifications.
